

## RELEVANT INFORMATION

### IMPORTANT DATES

Abstract Submission:  
1<sup>ST</sup> JULY 2011

Notification of Abstract Acceptance:  
15<sup>TH</sup> JULY 2011

Paper Submission:  
23<sup>RD</sup> SEPTEMBER 2011

Paper Review/Acceptance:  
7<sup>TH</sup> OCTOBER 2011

### REGISTRATION

	Until 31.07.2011	After 31.07.2011	Obs.
NORMAL	125,00	150,00	
MEMBERS OF BORDERS AND PROFESSIONAL ASSOCIATIONS	100,00	125,00	Individual registration
STUDENTS	40,00	50,00	By stating and without social program

Tax free

### POTENCIAL AUDIENCE

Engineering and Architecture professionals, Educators and Researchers, Engineering and Architecture students, Public and Private promoters, Managers, Contractors and other construction related companies.

## ORGANIZATION AND CONTACTS

### ORGANIZING COMMITTEE

Vítor Abrantes  
Hipólito Sousa  
Alfredo Soeiro  
António Samagaio  
Jorge Moreira da Costa  
José Amorim Faria  
Rui Calejo Rodrigues  
Miguel Gonçalves  
João Poças Martins  
Ana Sá  
Bárbara Rangel  
Pedro Mêda  
Isabel Horta  
Rui Campos  
António Ruivo Meireles

### SCIENTIFIC COMMITTEE

Anabela Paiva (UTAD)  
Aníbal Costa (U. Aveiro)  
António Tadeu (FCTUC)  
Armando Costa Manso (LNEC)  
Fernando Branco (IST)  
Fernando Pinheiro (FAUTL)  
João Lanzinha (UBI)  
Jorge de Brito (IST)  
Jorge Lopes (IPB)  
J. Mendes da Silva (FCTUC)  
J. Cardoso Teixeira (U. Minho)  
J. Teixeira Trigo (U. Lusófona)  
J. Vascelos Paiva (LNEC)  
Luís Otávio (UF Rio de Janeiro)  
Luís Villegas (U. Santander)  
Manuel Fonseca (U. Lusófona)  
Paulo Lourenço (U. Minho)  
Rui Póvoas (FAUP)  
Vasco Freitas (FEUP)

### EXCLUSIVE SPONSORSHIP

It takes place on October 26 the Mota-Engil Engenharia day, restricted to staff and MEEC guests

# GESCON 2011

## CONSTRUCTION INFORMATION SYSTEMS

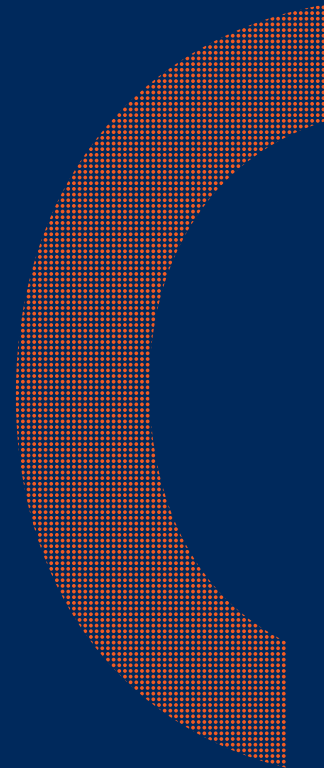

### PROJECTS

PRONIC  
SIGABIM  
RFID - CONSTRUÇÃO  
ICBENCH  
H-KNOW

### FIRST ANNOUNCEMENT

FEUP  
27<sup>TH</sup> AND 28<sup>TH</sup> OCTOBER 2011

ORGANIZATION  
GEQUALTEC

## PRESENTATION

GEQUALTEC is the group that teaches and researches in the field of Construction Management at FEUP. This activity must be very well coordinated with engineering, with the relevant legal framework and with construction and building practices. In this area, GEQUALTEC has developed R&D activities, like ProNIC and SIGABIM. These projects have already yielded results that can be shared.

In addition, the National framework of construction activity suffered significant changes due to the entry of new laws (such as the Public Procurement Code), supplemented by other laws that better define the content of projects, staff responsibilities and that require the use of electronic platforms for public procurement. On the other hand, the contraction of the construction activity underlines the need for all operators to become more efficient (efficiency gains and cost reduction).

As we all know, the construction industry handles significant amounts of information of various types and proper management is essential to achieve its stated objectives. It was, therefore, decided to adopt 'Information Systems in Construction' as the main topic for GESCON 2011, in order to promote the awareness of its importance to members of the community, to promote national discussion on this topic, to present innovative practices and to sensitize policymakers to relevant and strategic issues.

We expect participation and contributions from different backgrounds, academic, professional, design, construction and construction supervision as well as software and electronic platforms developers.

GESCON 2011 will include interventions by leading figures in the construction sector, short conference presentations and training workshops. This event will surely be innovative. We hope to see you in Porto on the 27th and 28th of October!

Vitor Abrantes, Hipólito Sousa

## TOPICS

Information systems throughout the construction life cycle. Current state of IS adoption in the construction industry and future perspectives.

### AS IN DESIGN

- Design
- Modeling
- Simulation
- Documental management

### e-PROCUREMENT

- Electronic Platforms
- e-business
- Project Analysis/Review

### AS IN CONSTRUCTION

- Planning
- Resource Management
- Safety, Quality and Environment

### LEGAL FRAMEWORK AND INOVATION

- Public Procurement Code
- Innovative Design
- Procurement Procedures
- Maintenance Management
